\* A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see Combat, p. 192, in *Total Warfare* for more information).  
A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.  
† The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see Combat, p. 192, in *Total Warfare* for more information).  
§ Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

MOTIVE SYSTEM DAMAGE TABLE

| 2D6 ROLL | EFFECT*                                                                                          |
|----------|--------------------------------------------------------------------------------------------------|
| 2-5      | No Effect                                                                                        |
| 6-7      | Minor damage; +1 modifier to all Driving Skill Rolls                                             |
| 8-9      | Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls                          |
| 10-11    | Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls |
| 12       | Major damage; no movement for the rest of the game<br>Vehicle is immobile.                       |

| Attack Direction Modifier: |    | Vehicle Type Modifier: |    |
|----------------------------|----|------------------------|----|
| Hit from rear              | +1 | Tracked, Naval         | +0 |
| Hit from the sides         | +2 | Wheeled                | +2 |
|                            |    | Hovercraft, Hydrofoil  | +3 |
|                            |    | WiGE                   | +4 |

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.
